DETAILED ACTION

1. Applicants' Response to Office Action, received 25 October 2006, is acknowledged.

Claims 1, 4, 5, 6, 7, and 11 have been amended.

Claims 1-20 are pending. Claims 8-10 and 15-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention.

2. Claims 1-7 and 11-14 are under consideration.

Rejections Withdrawn

3. The objection to claims 1 and 11 is withdrawn in light of the amendments of the claims.

Rejections Maintained

4. The provisional rejection of claim 2 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 3 of copending application No. 10/833,097, is maintained for reasons of record.

5. The rejection of claims 1-7 and 11 under 35 U.S.C. 112, second paragraph, as being indefinite, is maintained for reasons of record.

Applicants argue that the amendment of claim 1 and the teachings of the specification obviate the rejection. Applicants cite paragraph 0035, lines 12-21 to show that the DNA labeling reagent comprises a detectable group that can be selected from the group consisting of biotin, fluorescence, acridinium ester and acridium-9-carboxamide.

The examiner has considered applicants' argument, but does not find it persuasive because the argument is directed to a criticality not in the instant claims. None of the rejected claims recites that the labeling reagent comprises a detectable fluorescence group which is activated by either the avidin enzyme complex or the streptavidin enzyme complex. The claims merely recite in step (h) "detecting a color change utilizing a luminescence-emission substrate".

Art Unit: 1645

The claims do not indicate that the substrate is specific for the avidin or streptavidin complex enzyme, only "a" luminescence-emission substrate.

6. The objection to claims 12 –14 because they depend from rejected claims, is maintained for reasons of record.

Conclusion

7. No claims are allowed.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
